1. Why do I have to be in study hall if I transferred from another institution?

Answer: Transitioning to a new institution can be challenging even if you have begun your journey elsewhere. Typically at two-year institutions, academic support services for student athletes are provided at minimal, if at all. We believe that by providing you with structure and an environment to complete your assignments will help in your achieving the ultimate goal of graduating and playing at the Division I level.

2. Why is it important that I submit an official High School Transcript to the Office of Admissions?

Answer: In order to adhere to the Federal Government guidelines that Delaware State University is providing financial aid to students who have met the minimum admissions standards, including that of graduation from a high school, DSU has to verify (on official documentation) that you indeed have completed the necessary requirements for your high school diploma. This policy also applies for students requesting transfer from another institution of higher learning. **It is also required that, in order to expedite the admission process an additional official transcript is provided to the office of Academic Services for Student-Athletes.** W.C. Jason Library, Delaware State University, 1200 N. DuPont Hwy., Dover DE 19901

3. What is the difference between my Academic Advisor and my Academic Athletic Counselor?

Answer: You have been assigned an academic advisor who will work with you to determine the courses you will need to take from semester to semester in order to meet degree requirements. Your academic advisor, will help you transition from semester to semester. They will make sure you are taking the appropriate courses in the given year that you are registering for. Your academic counselor is there to assist you in becoming fully aware of the eligibility requirements necessary to compete with your respective sport. Your academic counselor is one who will disseminate information on behalf of your academic departments to your athletic coaches. For example, when progress reports are turned into your academic counselor, that data (good or bad) will be shared with your coach so that he or she can make decisions as to your eligibility to either play or practice within your respective sport. The ultimate goal of your academic counselor is to assist you in the academic, social, career, mental, and at times (but not required) spiritual development necessary for you to compete at the highest level; both in and out of the classroom.

4. Why was I dropped from my class schedule?

Answer: There are a few situations that may arise during your time at Delaware State where you may be dropped from your class schedule. If you do not attend the first week of classes, you will end up on what is called the “no show” list. Once you are placed on the no show list, your class(es) are removed until you and your professor can meet and justify why you have not attended classes or come to an agreement on what steps you should take to ensure your attendance. Additionally, students may find the cost of attendance a bit expensive and from time to time, and find themselves financially unable to address the cost associated with attending DSU, it is during those difficult times that student account holds are placed onto your schedule. If you find yourself in this situation, we ask that you meet with your financial aid representative as soon as possible so that provision (if possible) can be made to help settle your account so that you may resume with your academic activities.

5. What should I do if I have a grievance with my academic counselor and I no longer want him or her to work with me?

Answer: While we hope that each academic counselor prides themselves on providing the best customer service as humanly possible, we do understand the nature of building and maintaining student to counselor relationships. If the situation arises where you feel you have a grievance with your academic counselor, please feel free to set up an appointment with the [Associate AD for Academic Services](#) [1] and together you can look at the situation to find the best solutions without having to switch to another counselor. If the situation is irreparable, the Associate AD for Academic Services will reserve the right to meet with the academic counselor in question for feedback and justification for removal from his/ her caseload (i.e. remove student-athlete from caseload to another academic counselor on staff). If both parties can agree that this is in the best interest of the student-athlete, the following individuals will be immediately notified, the respective coach, the Associate Provost of Delaware State University, and the Director of Athletics and the student.

17. I understand that as a prospective or current male student-athlete that I may not be eligible receive Federal Student Aid if I am not registered with the Selective Service System, is this true?

Answer: By U.S. law, a male age 18 and over must register with the United States Selective Service System (www.sss.gov [6]). Federal Aid may be awarded however, but if the young man turns 18 during the semester, and fails to register with the SSS, the student-athlete will not receive further Federal Aid until he registers.
