

Management Course Descriptions

Economics (40)

40-201. MACROECONOMICS. 3:3:0

This course is a study of the operation and function of the American economic system. Attention is given to current economic problems, such as those relating to income, employment, business cycles, money and banking, growth, and development. Prerequisites: Sophomore standing. Credit, three hours.

40-202. MICROECONOMICS. 3:3:0

This course is a study of price and output determination in a free enterprise economy, with the assumption of consumer maximization of utility and producer maximization of profits. Prerequisite: 40-201. Credit, three hours.

40-301. INTERMEDIATE MACROECONOMICS. 3:3:0

This course provides a comprehensive analysis of macroeconomic concepts and theories, including the following: the aggregate economic activities of national output, employment, price levels, and interest rates; the aggregate theory of consumption, investment, and the demand and supply of money; economic growth, and inflation; unemployment, and the effectiveness of monetary and fiscal policies. The course also addresses classical, neoclassical, Keynesian, new classical, monetarist, and rational expectations models of closed and open economies. Prerequisites: Economics 201 and 202. Credit, three hours.

40-303. QUANTITATIVE ECONOMIC ANALYSIS. 3:3:0

This course addresses the logic and structure of mathematics as applied to economics. Use of mathematics in the fundamental propositions of microeconomics and macroeconomics is emphasized. Topics covered include mathematical programming, differential and difference equations, and game theory, as well as other deterministic and stochastic modes. Prerequisites: Economics 202, Management 208, and Math 225. Credit, three hours.

40-308. STATISTICAL ANALYSIS II FOR BUSINESS AND ECONOMICS. 3:3:0

This course focuses on applications of statistical techniques to economics and business. The course addresses the chi-square distribution, analysis of variance, simple and multiple regression analysis, time-series analysis, and forecasting. Statistical software packages are utilized. Prerequisite: Management 208. Credit, three hours.

40-310. INTRODUCTION TO ECONOMETRIC ANALYSIS. 3:3:0

This course examines statistical methods applied to the analyses of economic models and data. It emphasizes multiple regression analysis, multicollinearity, seasonality, heteroscedasticity, auto correlation, dummy variables, time series analysis, distribution lags, and simultaneous equations. Statistical software packages are utilized. Prerequisite: Management 208 and Economics 308. Credit, three hours.

40-400. MANAGERIAL ECONOMICS. 3:3:0

This course focuses on the application of microeconomic principles to the firm, from the perspective of the manager. Topics covered include demand analysis, production and cost analysis, linear programming, market structure and competitive strategies, pricing practices, decision making under uncertainty, and capital budgeting. Prerequisites: Economics 202, and Management 208. Credit, three hours.

40-401. PUBLIC FINANCE. 3:3:0

This course is a study of the theory of public finance, principles and practices of federal, state, and local taxation, expenditures and budgeting, the public debt and fiscal policy, including their impacts upon aggregate economic activities and resource allocation. Prerequisite: Finance 300. Credit, three hours.

40-414. MONEY AND BANKING. 3:3:0

Management Course Descriptions

Published on DSU (<http://www.desu.edu>)

This course is a study of the commercial banking system, non-bank financial institutions, the Federal Reserve System, monetary theory and policy, and debt management. Prerequisites: Economics 201 and 202. Credit, three hours.

40-415. INTERNATIONAL ECONOMICS AND TRADE. 3:3:0

This course examines the theory and practice of international trade and finance. It includes consideration of the following: the theories of comparative advantage and international specialization, trade policies and trade restrictions, foreign exchange markets and balance of payments, international trade systems, financial problems of foreign operations, transfer of funds and investment decisions. The course emphasizes operational and financial problems of multinational business entities. Prerequisites: Economics 301. Credit, three hours.

40-450. INDEPENDENT STUDY. 3:3:0

This course provides an opportunity for students to participate in special research projects or to study contemporary issues in Business Economics. Prerequisite: Permission of departmental chairperson. Credit, one to three hours.

40-XXX. SELECTED TOPICS. 3:3:0

This course is an in-depth study of a topic of current interest in the Business Economics areas. Prerequisite: Senior standing. Credit, three hours.

40-490. INTERNSHIP. 3:3:0

This course provides an opportunity for students to gain practical experience in business economic analysis through on-the-job assignments in businesses, government agencies, and/or other work- organizations. Prerequisite: Permission of the departmental chairperson. Credit, three to six hours.

General Management (41)

41-105. MANAGEMENT PROCESSES. 4:4:0

This is a cornerstone Integrated Management Course (IMC) which will orient students to the opportunities and challenges managers face in contemporary organizations. Students are introduced to the inter-relationships among the organizational functions of marketing, management, production and finance. Students will develop competencies of teamwork, communication, creative thinking, and change management. They will be charged with the responsibility to develop, operate, and exit a new enterprise. Prerequisite: 12 Credit Hours. Credit, four hours.

41-201. MANAGERIAL COMMUNICATIONS. 3:3:0

This is a practical intensive course focusing on both written and oral presentation skills. Problems, issues and technology of organizational communication are analyzed through written and oral presentations, case studies, experiential exercises and projects. Students will learn to write and speak clearly and effectively by focusing on style, organization, strategy, and persuasion. The course will also include a discussion of speaking formats, delivery, organization, and use of multi-media technology. The course is intended to improve managerial effectiveness in negotiation, persuasion and communication Prerequisite: English 102. Credit, three hours.

41-208. INTRODUCTORY STATISTICS. 3:3:0

This course introduces the concept of applied statistics. It addresses the following topics: data presentation; measures of central tendency; measures of variation, skewness, and kurtosis; basis probability concepts; probability distributions; sampling distributions estimation; and hypothesis testing. Prerequisite: Math 121. Credit, three hours.

41-305. MANAGEMENT INFORMATION SYSTEMS. 3:3:0

The application of information systems to organizational decision-making and operations is the focus of this course. Topics include: fundamentals of information system development, management and structures of databases, query processing and report generation using computer and non-computer concepts, computer-human interface, end-user computing, and data communications and network. (Not open to Accounting Majors). Prerequisites: Management 105 and MIS 100. Credit, three hours.

41-306. OPERATIONS MANAGEMENT. 3:3:0

Production and Operations planning concepts and analytical systems will be the central theme of this course. Designing and managing production processes, facilities, and process control are discussed. Topics include demand forecasting, material planning,

Management Course Descriptions

Published on DSU (<http://www.desu.edu>)

acquisition techniques, scheduling, total quality management, and continuous improvement concepts and methods. Prerequisites: Management 105, Management 208, and Math 225. Credit, three hours.

41-325. ORGANIZATIONAL BEHAVIOR. 3:3:0

This course addresses the application of behavioral science theories and research to understanding the behavior of persons in the work place, with emphasis on factors that impact workers' morale, group dynamics, and worker efficiency. Prerequisites: Management 105 and Junior Standing. Credit, three hours.

41/03-341. BUSINESS ETHICS. 3:3:0

This course will be devoted to an examination of some of the ethical issues that arise in the field of business. Specific topics to be considered include: business ethics and ethical theory, the moral status of corporations, ethical codes of conduct in business, truth and advertising, the rights and duties of employees, affirmative action, and environmental issues in business. Prerequisite: Junior Standing. Credit, three hours.

41-425. ORGANIZATIONAL DEVELOPMENT & CHANGE. 3:3:0

This course offers an examination of major behavioral issues in the management of organizations. Topics include power and influence in organizations, conflict management, individual and group behavior, communication, attitudes, values, organizational politics, leadership, motivation and performance. Students will also discuss factors that influence organizational change, strategies for planned change, the role of organizational culture in the change process, and the development of support systems and structures. Prerequisite: HR 320. Credit, three hours.

41-435. ENTREPRENEURSHIP. 3:3:0

The entrepreneurial model is used as a prototype. It is the basics of developing a new enterprise. Students begin with the elements of how to identify: new business ideas and opportunities, sources of venture ideas, and franchising opportunities. They develop a business plan for a start-up firm; establish the feasibility for the new idea; prepare a marketing audit to determine the potential organization's strategic position; and develop strategies, budgets, tactics, and activities to implement the new business idea. This is an applied course, and students are expected to work in small groups to create and to implement a new venture idea. Prerequisite: Junior Standing. Credit, three hours.

41-437. MANAGERIAL DECISION-MAKING & PROBLEM SOLVING. 3:3:0

This course offers an analysis of rational management decision making under conditions of risk and uncertainty, with emphasis on the analysis of problems with multiple, competitive objectives in industry and government. Prerequisites: Finance 105, HR 320. Credit, three hours.

41-440. INTERNATIONAL MANAGEMENT. 3:3:0

A survey of the major issues which face a manager operating in an international environment is the focus of this course. The aim of the course is to examine how different national and cultural environments affect the way that multinational companies (MNCs) operate from one country to the next. Topics include: an overview of global management, cultural environment, why firms internationalize operations, international human resource management, cross-cultural communication and decision-making, international strategies, and organizing international enterprises. Prerequisites: Senior standing. Credit, three hours.

41-445. STRATEGIC MANAGEMENT. 3:3:0

This senior capstone Integrated Management Course is intended to apply theoretical concepts to a variety of organizational situations from a top-management perspective. This course also satisfies our General Education Requirement for a senior capstone course. The concepts and techniques of strategic management in organizations will be the focus of this course. Topics include developing a strategic vision, setting objectives and crafting a strategy. Students will be expected to develop a competitive analysis portfolio, match strategy to an organization's situation, build resource capabilities, support systems, budgets, policies, align culture and strategy, and structure the organization to implement the organization's strategic vision in a dynamic global marketplace. This course is team taught. Prerequisite: Senior standing. Credit, three hours.

Finance and Banking (43)

43-300. MANAGERIAL FINANCE. 3:3:0

The role of financial management in profit and nonprofit business enterprises includes financial analysis, planning needs for short-

Management Course Descriptions

Published on DSU (<http://www.desu.edu>)

term and long-term funds, capital budgeting and raising funds to finance growth of business enterprise. Prerequisites: Economics 201, Economics 202, Accounting 202 or Accounting 203. Credit, three hours.

43-315. FINANCIAL MARKETS & INSTITUTIONS. 3:3:0

This course examines structures and functions of various financial markets such as stock, bond, mortgage, and money markets. It also addresses financial management aspect of different financial institutions including banks, savings and loans association, investment companies, and pension funds. Prerequisite: Finance 300. Credit, three hours.

43-316. RISK MANAGEMENT & INSURANCE. 3:3:0

This course provides examination of credit and risk and their importance in personal and business activities. The focus is on the process involved in supplying credit to borrowers by financial institutions and methods of handling credit and risk. Prerequisite: Finance 300. Credit, three hours.

43-320. CONSUMER FINANCIAL PLANNING. 3:3:0

This course offers the basics of financial planning, and addresses the relationships between consumers of financial services and the products offered by financial intermediaries, investment brokerages, insurance companies, credit agencies & nonbank financial institutions. The course addresses checking and money market accounts, budgeting, taxes, investments, real estate, insurance, retirement, and estate planning in order to live better financially. Prerequisite: None. Credit, three hours.

43-418. INVESTMENTS. 3:3:0

This course addresses principles in determination of investment vehicles for individual and institutional portfolios. The focus is on sources of investment information, instruments, features, and appropriateness of various securities as investment for individuals and institutions. Prerequisite: Finance 300. Credit, three hours.

43-420. COMMERCIAL BANK MANAGEMENT. 3:3:0

This course addresses the functioning and management of commercial banks and other financial institutions including the flow of funds and role of interest rate in money and capital markets; asset and liability management; interest rate risk management; supply of loan funds and demand for funds in mortgage loan market, consumer credit market, corporate securities markets, and municipal obligations; and the effects of Federal Reserve and Treasury policies on financial markets. Prerequisite: Finance 300. Credit, three hours.

43-424. NEW VENTURE FINANCE & INVESTMENT. 3:3:0

In this course the process and techniques of financing new ventures and investing in fledgling companies are examined in detail. The issue of debt versus equity financing, and a variety of financing vehicles will be examined in the context of new and small ventures in the process of expansion and emerging. E-Commerce/E-Business enterprises are discussed. Case studies will be utilized to illustrate creative solutions to the structuring of new venture financing. Prerequisite: Finance 300. Credit, three hours.

43-441. INTERNATIONAL FINANCIAL MANAGEMENT. 3:3:0

This course examines the international financial environment and financial management of multinational corporations including foreign exchange risk management, financing foreign operations, foreign investment analysis, and multinational working capital management. Prerequisites: Finance 300, Finance 315, Senior Standing. Credit, three hours.

43-449. SENIOR SEMINAR IN FINANCIAL MANAGEMENT. 3:3:0

This course offers selected topics on current issues pertaining to finance and other related areas of interest, which includes derivatives, mergers and acquisitions, and financial engineering. Prerequisites: Finance 300, Finance 315, Senior Standing. Credit, three hours.

43-450. INDEPENDENT STUDY. 1-3:1-3:0

This course provides an opportunity for students to participate in special research projects or to study contemporary issues in Finance. Prerequisite: Permission of departmental chairperson. Credit, one to three hours.

43-462. SELECTED TOPICS. 3:3:0

This course is an in-depth study of a topic of current interest in the Finance area. Prerequisite: Senior Standing. Credit, three hours.

43-490. INTERNSHIP. 3-6:3-6:0

This course provides an opportunity for students to gain practical financial experience through on- the-job assignments at businesses and institutions. Prerequisite: Permission of the departmental chairperson. Credit, three to six hours.

Hospitality and Tourism Management(45)

45-100. INTRODUCTION TO THE HOSPITALITY INDUSTRY. 3:3:0

This course provides a basic understanding of the lodging, food services, tourism, and casino management industries, emphasizing the tracing of the hospitality industry's growth and development, reviewing the organization of hotel, food, and beverage operations, and focusing on industry opportunities and future trends. Prerequisite: None. Credit, three hours.

45-108. INTRODUCTION TO TOURISM CONCEPTS. 3:3:0

This course is designed to provide students with basic knowledge of tourism and travel-related concepts and with the practical experience that will enable them to effectively apply those concepts to the hospitality industry. Prerequisite: None. Credit, three hours.

45-207. SANITATION & SAFETY. 3:3:0

This course covers the principles and practices of sanitation and hygiene as applied to the food industry. Emphasis is placed upon the training of supervisory personnel in sanitation procedures. Students will have an opportunity to apply their knowledge in a practical, on-the-job learning experience by implementing self-inspection and training for food service establishments. Successful completion of the course will qualify students for National Institute of the Food Service (NIFI) National Sanitation Certification. Prerequisite: None. Credit, three hours.

45-210. HOSPITALITY PURCHASING. 3:3:0

This course introduces the student to methods of purchasing hospitality goods and services in large quantities. It emphasizes hospitality product standards and specifications, purveyor-customer relationships, buying procedures, and control systems. Prerequisite: Hospitality 311. Credit, three hours.

45-214. INTERNSHIP I. 1:1:0

This course requires off-campus hospitality work experience that introduces students to the challenges faced by managers in the hospitality industry. It requires that students complete research assignments (to investigate hospitality industry problems), one lecture per week, and one summer work experience in the hospitality industry. Prerequisite: Sophomore standing. Credit, one hour.

45-305. HOSPITALITY COST CONTROL. 3:3:0

This course provides requisite competencies related to the application of cost controls, development and implementation of systems of controls, based on mission, goals and objectives of the hospitality operations related to foods and beverages, labor and supplies. An analysis of techniques currently used to generate revenue while controlling cost drivers is emphasized.

45-311. FOOD PRODUCTION MANAGEMENT. 3:3:0

This course addresses the study of food groups, their nutritional value, methods of preparation, cooking presentations, holding, and service techniques. Some attention will be given to the application of scientific principles in the preparation of a wide variety of foods. Students will prepare recipes, menus, and production schedules, as well as acquire the ability to recognize properly prepared foods -- through preparing, tasting, and evaluating foods. Students will also develop an awareness of potential production problems, especially in the areas of sanitation and safety, and how to troubleshoot them. Students will attend one lecture and four lab hours per week. Prerequisite: Hospitality 207. Credits, three hours.

45-314. INTERNSHIP II. 3:3:0

Students are required to work a minimum of nine weeks (on a full-time basis) during the summer, Fall or Spring Semester in a supervised work experience. Prerequisite: Hospitality 214. Credit, three hours.

45-327. FACILITIES DESIGN AND MAINTENANCE. 3:3:0

This course includes a study of basic engineering, public safety, building codes, equipment selection, and design procedures related to the hospitality industry. Students must complete a hospitality facilities design project. Prerequisite: None. Credit, three hours.

45-349. HTM MANAGERIAL ACCOUNTING AND FINANCE. 3:3:0

Management Course Descriptions

Published on DSU (<http://www.desu.edu>)

This course provides an analysis and practical applications of hospitality and tourism accounting and finance systems currently used. Special emphasis is placed on Yield Management, Revenue Management, Revenue per Available Room, Property Management Systems and concepts designed to control costs and increase revenue. Prerequisites: Junior Status, Accounting 201. Credit, three hours.

45-355. LODGING OPERATIONS MANAGEMENT. 3:3:0

This course is an analysis of the historical development of lodging and innkeeping. Principles of operation, lodging classifications and ratings, as well as, aspects of the interactions between the guest services department, housekeeping, accounting, reservations, food and beverage, and other departments will be studied. Thirty hours of work experiences required in a lodging setting. Prerequisite: Junior Status Hospitality 355. Credit, three hours.

45-405. SUPERVISION IN HOSPITALITY AND TOURSIM MANAGEMENT. 3:3:0

An analysis of service requirements that predict supervision requirements in the Hospitality and Tourism industry and quantifiable standards are discussed based on required behavior of supervisors. Aspects of current labor laws, standards of the industry, supervisory assessments, and industry practices are emphasized. Prerequisite: Hospitality 355. Credit, three hours.

45-408. FOOD SERVICE SYSTEMS MANAGEMENT. 3:3:0

This course examines the organization, administration, and application of managerial techniques in food service systems. It also addresses production, distribution, selection, and storage of food commodities, specification writing, personnel training, job analysis, morale, motivation, and computer applications. Prerequisite: Hospitality 311. Credit, three hours.

45-415. CATERING MANAGEMENT. 3:3:0

This course explores off-premises catering for management and social functions. Other types of catering operations, such as sports and special events, will be explored as well. Topics include the following: organizational structure of catering operations, legal aspects of catering businesses, menu design for special functions and its operational implications, marketing from a caterer's point of view, function planning and management, staff recruitment, training and supervision, and post-event analysis. Prerequisite: Hospitality 311. Credit, three hours.

45-417. HOSPITALITY LAW AND LEGAL ENVIRONMENT. 3:3:0

An analysis and assessment of laws related to the operation of each of the Hospitality and Tourism components. Laws related to human resources, licensure requirement, contract negotiations, civil rights, food and beverage service, innkeeping and travel are emphasized. Financial systems, such as yield management and REVPAR are emphasized. Case analysis, forums assessing court cases and research related to lawmaking are included. Prerequisite: Senior Status.

45-418. CLUB OPERATIONS/BEVERAGE MANAGEMENT. 3:3:0

This course includes a detailed study of the classification, production, identification, and service of beverages (including alcohol). Emphasis is placed on the planning, development, operation, and management of clubs. Prerequisites: Hospitality 210, Hospitality 305 and Hospitality 311. Credit, three hours.

45-419. GAMING. 3:3:0

This course introduces students to the multi-billion dollar gaming industry. It includes a historical overview of gaming and examines legal, social, and economic issues within the industry. The course also reviews the various games played in casinos, the current trends, and the most popular casino destinations in the world. Special attention is devoted to the growth of casinos on cruise ships, on Indian reservations, and on riverboats in the United States. Prerequisite: Accounting 201. Credit, three hours.

45-420. RESORT AND RECREATIONAL MANAGEMENT. 3:3:0

The course emphasizes a comprehensive approach to the operations of resort and recreational properties. Beginning with historical development, details are presented in planning, development, financial investment management, and marketing that deal with the unique nature of the resort business. The course also examines the future and the impact of the condominium concept, time sharing, technological changes, and the increased cost of energy and transportation. Prerequisite: Senior standing. Credit, three hours.

45-425. TOURISM AND CASINO MARKETING. 3:3:0

This course provides an analysis of current and future marketing strategies designed to promote the growth and development of the hospitality and tourism. Marketing Research will be conducted as a component of the course. Prerequisite: Senior standing. Credit, 3 hours.

45-445. RESTAURANT MANAGEMENT. 3:3:0

This course requires each student to participate as a manager of a full-service restaurant operation. Lectures will include topics relating to the general management of restaurants. These topics will address the issues involved in defining a service philosophy, improving profit margins, securing adequate supplies, identifying target markets, and planning for organizational growth. Many aspects of production and service in a full-service restaurant will be experienced, discussed, and demonstrated. Prerequisite: Hospitality 311. Credit, three hours.

45-450. INDEPENDENT STUDY. 3:3:0

This course provides an opportunity for students to participate in special research projects or to study contemporary issues in Hospitality and Tourism Management. Prerequisite: Permission of Chairman.

45-462. SELECTED TOPICS. 3:3:0

This course is an in-depth study of a topic of current interest in the Hospitality and Tourism Management areas. Prerequisite: Senior standing. Credit, three hours.

45-490. EVENT PLANNING AND TOURISM MANAGEMENT. 3:3:0

This course is designed to provide students with aspects of event planning. Special emphasis will be placed on marketing, planning, costing, executing, and evaluating of events. Students will learn basic components of meeting/event setups, travel and lodging, and transportation information. Based on client and guest needs, a plan of development will be designed. Prerequisite: Senior standing. Credit, three hours.

Marketing (46)

46-300. PRINCIPLES OF MARKETING. 3:3:0

This course addresses concepts and issues underlying the modern practice of marketing, including the following: the environmental forces affecting the marketing decision maker; organization and planning of the marketing function; market segmentation; marketing mix; and other relevant topics. Prerequisite: Junior standing. Credit, three hours.

46-303. SELLING AND SALES MANAGEMENT. 3:3:0

This course provides an introduction to selling management and the personal selling components of marketing management. The role of the sales manager in recruiting, directing, motivating, and rewarding a sales force are discussed and analyzed. This course has an emphasis on the selling process, the buyer-seller dyad, market analysis, formulation of sales strategies, the sales presentation, and account and territory management. Prerequisite: Management 105 and Marketing 300. Credit, three hours.

46-315. BUYER BEHAVIOR. 3:3:0

This course identifies major factors that influence how both consumers and institutional buyers process and learn marketing information. Emphasis is on the role culture and personal and interpersonal influences have on buyer behavior. Examination of marketing strategies to best reach the needs of diverse market segments is part of the course offering. Prerequisite: Management 105 and Marketing 300. Credit, three hours.

46-320. RETAIL MERCHANDISING. 3:3:0

This course examines principles and practices of organizing, operating, and managing retail establishments, with emphasis on planning, control, pricing, distribution, promotion of merchandise, retail inventory methods, and other relevant topics. Prerequisite: Management 105 and Marketing 300. Credit, three hours.

46-376. SMALL ENTERPRISE MARKETING. 3:3:0

This course focuses on the specific marketing needs of small enterprises. It includes the development of strategic marketing plans within limited budgets, segmentation strategies, and developing promotional activities for targeted markets. Prerequisite: Management 105. Credit, three hours.

46-407. PROMOTIONAL STRATEGY. 3:3:0

This is a project-oriented course focused on integrated marketing communications. Topics include advertising organization and design, measurement of advertising effectiveness, sales promotion, the personal selling, and public relations. Prerequisite:

Management 105 and Marketing 300. Credit, three hours.

46-410. ORGANIZATION-TO-ORGANIZATION MARKETING. 3:3:0

This course assesses marketing opportunities among organizations. Strategies will be developed based on analysis of the organizational environment both internal and external. Marketing mix strategies will address the needs of large multi-national corporations and organizations (public and private) as well as the relationship among smaller organizations. Prerequisites: Senior Standing, Management 105 and Marketing 300. Credit, three hours.

46-412. SUPPLY CHAIN MANAGEMENT. 3:3:0

This course considers the components of modern-day physical distribution and logistics systems, with emphasis on facility location, transportation, warehousing, inventory control, and communications. While emphasis is placed on physical distribution flows, additional topics covered include the flow of information, and the flow of money in a supply chain. Prerequisites: Marketing 410, Management 105 and Marketing 300. Credit, three hours.

46-415. MARKETING RESEARCH. 3:3:0

This course is the study of applied research methods in the analysis of marketing problems and the utilization of research findings in the formulation of marketing policies. Emphasis is on research design, sampling, data collection, psychological scaling, techniques of statistical analysis, preparation and presentation of the research report, and other relevant topics. Prerequisite: Management 208, Marketing 315. Credit, three hours.

46-420. INTERNATIONAL MARKETING. 3:3:0

This course addresses the social, cultural, political, and economic environmental differences of countries in relation to marketing practices. Consideration is also given to the role of multinational corporations. Prerequisite: Management 105 and Marketing 300. Credit, three hours.

46-426. MARKETING MANAGEMENT. 3:3:0

This course provides opportunities for advanced study of marketing functions, from the point of view of the marketing manager. It emphasizes formulation and implementation of marketing policies, including marketing planning, buyer behavior, in addition to product, channel, promotion, and pricing strategies. Prerequisite: Senior Standing, during the final semester of course work, and Marketing 300. Credit, three hours.

46-450. INDEPENDENT STUDY. 3:3:0

This faculty-supervised study offers students the opportunity to undertake independent research projects to study contemporary issues in marketing. Prerequisite: Permission of departmental chairperson. Credit, one to three hours.

46-478. E-MARKETING. 3:3:0

This course focuses on the development of marketing programs and strategy that integrates the Internet and World Wide Web. Specific topics include the application of the Internet to the development of product, pricing, promotion, and distribution strategies, customer relationship management, segmentation, differentiation, and positioning strategies. Additional topics covered include cyber law as it applies to marketing, issues of privacy, and ethics. Prerequisites: Management 105 and Marketing 300. Credit, three hours.

46-462. SELECTED TOPICS. 3:3:0

This course is an in-depth study of a topic of current interest in the Management or Accounting major. Prerequisite: Junior Standing. Credit, three hours.

46-490. INTERNSHIP.

This course allows students to gain practical experiences in marketing, through on-the-job work assignments with various businesses and institutions. Prerequisite: Permission of the departmental chairperson. Credit: three to six hours.

Management Information Systems (MIS) (52)

52-100. MICROCOMPUTER APPLICATIONS. 3:3:0

The purpose of this course is to provide an introduction to computers and information processing for students desiring to learn

what a computer is, how it functions, how it is applied to the solution of business and related problems in a modern society, and the future trends in computer applications. A “hands-on” approach will be employed with commercially available microcomputer software packages for word processing, electronic spreadsheets, database management, and graphical presentations, and web design methods using HTML. Computer career opportunities will also be discussed. Credit, three hours.

52-200. APPLIED IS TECHNOLOGY. 3:3:0

This course introduces students to the uses, trends, and applications of information technology. It is designed to expose students to technologies relating to computer hardware, computer software, telecommunications, network technology, the Internet and World Wide Web, and multimedia. Computer career opportunities and topics relating to ethical issues within the Information Systems field will also be discussed. Credit, three hours.

52-313.WEB DESIGN AND IMPLEMENTATION (INTERNET BASED DEVELOPMENT). 3:3:0

This course provides in-depth understandings of Web services, including how to write HTML, set up and configure a variety of popular Web servers, and capture information to external databases. Students will set up their own Web servers, develop text and graphic intensive Web pages, use hyperlinks, and examine the potential of Java, JavaScript, PHP, ASP and Shockwave. Prerequisites: MIS 314. Credit, three hours.

52-314. VISUAL BASIC. 3:3:0

This course introduces students to visual basic programming in the windows environment. Concepts of structured, and objects oriented programming are introduced. Prerequisite: Management 305, MIS 200. Credit, three hours.

52-450. INDEPENDENT STUDY. 3:3:0

This course provides an opportunity for students to pursue topics of in-depth study that is tailored to their personal interests. This course is open only to students with advanced standing with the consent of the faculty and under the supervision of a designated faculty member. Prerequisite: Junior Standing. Credit, one to three hours.

52-460. ADVANCED PROGRAMMING LANGUAGES (LOGIC & DESIGN). 3:3:0

This course offers the fundamental structures of programming languages; rudiments of machine and assembly level languages; elements of procedural, non-procedural and fourth-generation languages; object-oriented extensions to languages; and design, implementation, and comparison of programming languages. Prerequisites: Management 305 and MIS 314. Credit, three hours.

52-475. NETWORKING AND TELECOMMUNICATIONS. 3:3:0

Architecture, goals and structure of an operating system, and hardware architecture are components of this course. Process and memory management; resource allocation and scheduling; secondary storage management; file and directory systems; protection and security; distributed operating systems; OS support for human interaction; OS interoperability and compatibility; OS utilities, tools, commands and shell programming; systems administration and management are also addressed in this course. Prerequisites: Management 305 and MIS 460 Credit, three hours.

52-470. DATABASE MANAGEMENT SYSTEMS. 3:3:0

This course offers an extended study of modern database technology, which is designed to expose students to the development of database management systems. Prerequisite: Management 305, MIS 460. Credit, three hours.

52-474. TELECOMMUNICATIONS. 3:3:0

This course is an introduction to the transmission media used in digital communications. The course focuses on the study of the concepts, components and issues involved in the design, and implementation and management of computer communications networks. Prerequisite: Management 305. Credit, three hours.

52-480. SYSTEMS ANALYSIS & DESIGN. 3:3:0

An examination of the concepts, tools, and techniques used to develop and support computer based information system is offered in this course. Prerequisite: Management 305. Credit, three hours.

52-XXX. SELECTED TOPICS. 3:3:0

This course is an in-depth study of a topic of current interest in the Information Systems area. Prerequisite: Senior Standing. Credit, three hours.

52-490. INTERNSHIP. 3:3:0

This course provides an opportunity for students to gain practical experience in the area of Information Systems through on-the-job assignments with approved organizations. Prerequisite: Permission of the departmental chairperson, Management 305. Credit, three to six hours.

52-496. SYSTEMS DEVELOPMENT PROJECT. 3:3:0

Participating in this course's team systems development projects challenges the students' analysis and design skills. Topics covered include case and project management, feasibility analysis, and interpersonal skills. Prerequisites: Management 305, MIS 480. Credit, three hours.

Human Resource Management (53)

53-320. PERSONNEL/HUMAN RESOURCES MANAGEMENT. 3:3:0

A comprehensive study of the functions and responsibilities of the Human Resource Manager is offered in this course. Topics include: employee selection, job-design, performance appraisal, training and development, career planning and management, managing a diverse workforce, safety, health and the role of the labor relations manager. Responsibilities and relationships with other managers and employees are covered. Discussion of the HR function in other countries is also included. Prerequisites: Management 105 and Junior Standing. Credit, three hours.

53-330. MANAGEMENT/EMPLOYEE RELATIONS. 3:3:0

This course is a survey of the collective bargaining system in the U.S. The development of managerial approaches is provided to achieve labor-management cooperation, negotiations between management and employees' organizations, the nature and significance of collective bargaining, procedures of collective bargaining, bargaining issues, contract administration, current practices and the future directions of unions. Prerequisite: HR 320. Credit, three hours.

53-352. LEGAL ISSUES IN HR MANAGEMENT. 3:3:0

This course provides a critical review of current and proposed legislation and institutions pertaining to the management of an organization's human resources. Contemporary employment practices and the law are explained in detail. Title VII of the 1964 Civil rights Act, the Equal Pay Act, the Age Discrimination in Employment Act, the Civil Rights Act of 1967, and federal affirmative action programs are among the many issues discussed. Prerequisite: Accounting 302. Credit, three hours.

53-430. COMPENSATION AND BENEFITS MANAGEMENT. 3:3:0

This course is an in-depth study of the development and administration of monetary and non-monetary reward programs, job pricing, benefit packages, job analysis and evaluation systems, and individual and group incentive plans. Prerequisites: Finance 300 and HR 320. Credit, three hours.

53-440. HUMAN RESOURCE PLANNING AND INFORMATION SYSTEMS. 3:3:0

This course is a survey of concepts and techniques of human resource planning, with special emphasis on forecasting human resource requirements and the development of succession plans. An examination is done of the practical and conceptual issues in the development, acquisition and application of Human Resource Information Systems and other data management techniques. Prerequisites: HR 430, and HR 320. Credit, three hours.

53-450. INDEPENDENT STUDY. 3:3:0
