

## Student Health Services

### Services Provided

- Treatment for illness and injury
- Family Planning Services
- Sexually Transmitted Disease (STD) prevention counseling, testing and treatment (Including confidential HIV testing and counseling)
- Emergency Contraceptive Pill (ECP)
- Limited on site diagnostic testing
- Health promotional activities, health education, and educational workshops
- Referral for specialty care off campus when deemed necessary
  - The student is responsible for transportation to off campus health care facilities
  - The University is not responsible for medical care received at off campus facilities
  - The SHC does not do physical exams; contact your primary care provider for this service
  - The University does not cover the cost for transportation

### Health Care Services

- On Campus, you have access to medical professionals 5 days a week at the Student Health Center
- In the local Community, you have access to walk-in care at Urgent Care Centers and emergency care at the hospital

The Student Health Center offers health care to all full-time residential and commuter undergraduate students (12 credit hours or more) and full-time residential graduate students (6 credit hours or more).

To schedule an appointment call 302-857-6393 or come to the student health center. Students are only eligible to receive services during the semester they are currently enrolled in and will be asked to show a validated Delaware State University Identification Card before any services are rendered. Student Athletes should call the Sports Medicine department at 302-857-7861 to schedule an appointment or go to the [Sports Medicine Department](#) [1].

### Pre-Entrance Exams

All students must have their Student Health Form submitted to the Student Health Center in order to **complete the registration process, receive clearance to move into campus housing, and receive health care services.**

All full-time incoming freshmen, transfer, and graduate students are required to provide proof of the following immunizations / screenings: Measles, Mumps, and Rubella; Tetanus-Diphtheria-Pertussis; Meningococcal Meningitis; and a recent Tuberculosis (TB) risk assessment screening and/or the Tuberculin Skin Test or blood test (refer to the [Student Health Form](#) [2] for additional information).
