The following permission slip is required for each Summer Food Biotechnology application at Delaware State University (DSU) and is to be filled out by the parent or legal guardian of the student applicant.

Program Background
The Summer Food Biotechnology Camp is an exciting new program available at DSU to offer high school students the opportunity to gain guided, hands-on research experience in a university atmosphere.

The intention of the program is to show developing students that the science and technology curriculum being taught at their local high schools is/are directly relevant to many research opportunities that are available at the collegiate level. We believe that by simply showing a high school student what he/she is capable of contributing to the world, by retaining interest in STEM knowledge, he/she will show more excitement toward learning that will maximize their perspective on education in these crucial years of intellectual development. Furthermore, the experience at DSU will allow high school students to interact with university faculty and staff to learn about the DSU Food Science Program.

Purpose of Permission Slip
The Summer Food Biotechnology Camp is limited to the number of students that can be accepted during the 2016 session. Any current high school student that was not a senior in the 2015-2016 school year is eligible to apply. There are no restrictions concerning extracurricular accomplishments relating to the student’s qualifications. We are looking for students who genuinely want to learn about science in food. This application will allow us to ensure that all applicants are willing to commit ten days (July 11th-22nd; 9 am -4 pm) of their summer break to the camp and will carry strong weight into our decision process.

Application Directions
- Application Permission Slip & Demographic information packet to be filled out by the parent or legal guardian of the student applicant.
- One essay written by the student, 1 or 2 pages: essay of 1) intention and 2) STEM interests.
- A letter of recommendation from teacher (option)
- Submission deadline: May 15th, 2016.

Please send all application documents via email or one envelope to:
Dr. Jung L. Lee (E mail: jlee@desu.edu)
1200 N. DuPont Hwy, Delaware State University, College of Agriculture and Related Sciences, Department of Human Ecology, Dover, DE 19901

NOTE:
- The summer camp committee will review applicants’ packets and will contact anticipated students in May-June (The fixed number: 12-15 students).
- Participants must provide their own TRANSPORTATION
The following permission slip is required for each Summer Food Science & Biotechnology application at Delaware State University (DSU) and is to be filled out by the parent or legal guardian of the student applicant.

Demographics

Student Applicant ________________________________
First Name ____________________ Last Name 

Gender _________________ Date of Birth ____________________
(Optional) Month / Day / Year

High School or Vocational School __________________________________________
Applicant must be a student here during 2015-2016 school year

Classification on January 1, 2016
□ Freshman    □ Junior    □ Sophomore GPA____________
