ATTENTION
Teens Ages 15-19 Years
DON’T WASTE TIME
THIS SUMMER

Let Us Help You
Build Some Serious Technology
and Entrepreneurship Skills
While Out of School!

The DELAWARE EDTECH.ORG SUMMER TECHNOLOGY ACADEMY is a six-week project-based technology program powered by The E-House and hosted at DSU® Wilmington June 20–July 29, 2016, Monday through Thursday – 9:00 a.m.-3:00 p.m. This new innovative Technology Academy is designed to teach High School teens (15-19 years of age) Cutting-Edge technical, business, marketing and entrepreneurial skills using project-based training in course areas such as:

- Computer and Internet Technologies (Digital Literacy Fundamentals)
- Microsoft Office and Software Programs for Windows
- Film Making and Video Production
- Web/App Design and Development
- Game Design and Programming
- 3D Modeling and Printing
- Digital Media (Photography and Graphic Arts)

HOW MUCH DO TEENAGERS REALLY KNOW ABOUT TECHNOLOGY?
This Academy is for teens that have dreams about building Mobile Apps, Making Video Games, or Designing Creative Websites and Producing Cool YouTube Videos. Our experts can show you how!

Come have fun this Summer Learning some really Cool Stuff including how to start your own technology business or how to prepare for a future job with the skills you learn.

REGISTRATION FEE: $285.00 EACH WEEK.
- Parents, make an investment in your teenager this summer that will pay huge dividends well into the future!
- Teens sign up five Friends to enroll with you and your Registration is free.  TEACHERS ATTEND FREE!
