THE COORDINATED PROGRAM IN DIETETICS

Handbook Introduction

The purpose of this handbook is to serve as the Coordinated Program in Dietetics (CP) student’s resource while attending Delaware State University. It should be considered a companion to the DSU Undergraduate Catalog and Student Handbook, which are located at http://www.desu.edu/catalogs and http://www.desu.edu/student-handbook.pdf.

You should review the information, policies, and procedures in this handbook regularly to ensure that you are familiar with them. They are meant to be a helpful resource that answers many questions. For further information, please contact the program director, Dr. Bettina Taylor, RDN, at bctaylor@desu.edu or call (302) 857-6865.

The Registered Dietitian/Nutritionist (RDN)

In the United States of America, nutrition and disease prevention are fields of growing interest to the general public and the medical community, especially as the population ages. According to the Academy of Nutrition and Dietetics, “registered dietitian nutritionists — RDNs — are the food and nutrition experts who can translate the science of nutrition into practical solutions for healthy living. RDNs use their nutrition expertise to help individuals make unique, positive lifestyle changes. They work throughout the community in hospitals, schools, public health clinics, nursing homes, fitness centers, food management, food industry, universities, research and private practice. RDNs are advocates for advancing the nutritional status of Americans and people around the world.”

The Accreditation Council for Education in Nutrition and Dietetics (ACEND)” is the Academy of Nutrition and Dietetics’ accrediting agency for education programs preparing students for careers as registered dietitian nutritionists (RDN) or dietetic technicians registered (DTR). ACEND serves and protects students and the public by assuring the quality and continued improvement of nutrition and dietetic education programs (http://www.eatrightacend.org/ACEND/). For information or concerns, ACEND can be contacted at:

Accreditation Council for Education in Nutrition and Dietetics
120 South Riverside Plaza, Suite 2000
Chicago, IL 60606-6995
Phone: (800) 877-1600, extension 4872
ACEND defines a three step process to become a RDN.

1. Completion of the required course work explained in more detail below that allows the student to gain the knowledge requirements to practice as a RDN (step 1).

2. Completion of a minimum of 1200 hours of supervised practice in clinical nutrition, food service management and community nutrition to obtain core competencies to practice as a RDN (step 2). At Delaware State University, the student enrolled in the CP will receive a bachelor’s degree in Food and Nutritional Sciences with a concentration in Dietetics upon completion of steps 1 and 2.

   All graduates who have completed the academic course work (Step 1) and supervised practice (step 2), will receive an official verification statement, attesting their eligibility to sit for the registration examination. Their names are submitted to the Commission on Dietetic Registration (CDR) to authenticate their eligibility.

3. Passing of the national Registration Examination administered by the Commission on Dietetic Registration (Step 3). This exam evaluates if the graduate can perform at entry level. For further information, please see the website: https://www.cdrnet.org/vault/2459/web/files/CDRRDHandbook2015.pdf. Successfully passing this examination allows the student to use the credential: registered dietitian/nutritionist or RDN.

   A graduate with a RDN credential will also be able to apply for licensure in Delaware: http://dpr.delaware.gov/boards/dietitians/newlicense.shtml or any states that have licensure: http://www.nutritioned.org/licensed-nutritionist.html. Not all states have licensure at this time.

The Coordinated Program in Dietetics (CP)

The Coordinated Program in Dietetics (CP) at Delaware State University is housed in the Department of Human Ecology which is part of the College of Agriculture and Related Sciences. Delaware State University is currently accredited by the Middle States Commission on Higher Education through 2022. Students in the CP will receive a baccalaureate degree in Food and Nutritional Sciences with a concentration in Dietetics upon successful completion of 129 credit hours of course work and a minimum of 1200 hours of supervised practice. After completion of an extensive self-study and a site visit by the Accreditation Council for Education in Nutrition
and Dietetics (ACEND) the Coordinated Program has been granted candidate status in 2016. The program has a CP Advisory Board that meets at least twice each year, providing strategies for program improvements and assisting in program assessment.

Students enrolled in the Food and Nutritional Sciences program with a minimum GPA $> 3.0$ can apply for admission into the Coordinated Program in Dietetics (CP) in their junior year before they are able to begin any part of their supervised practice experience. To gain admission, students must complete most of the general education and science prerequisites and meet the GPA requirements, providing evidence of completion of their academic study in communication, mathematics, and the sciences.

Upon completion of the required course work and supervised practice, the student will also receive a verification statement, attesting successful completion of all academic and supervised practice requirements. This allows students to take the registration examination to become registered dietitians/nutritionists.

**MISSION STATEMENT, GOALS, AND OBJECTIVES**

**Mission Statement**
In accordance with the mission of Delaware State University and the College of Agriculture & Related Sciences, the coordinated program will graduate a diverse group of leaders who will provide quality, culturally competent food and nutrition services, promoting, improving, or restoring health and well-being of people in their state, nation, and/or around the globe.

**Program Goal 1:**

- CP graduates meet or exceed entry-level competency standards for dietitians in their chosen area of practice.

**Program Objectives for Goal 1**

1. At least 50% of enrolled students will complete the CP program requirements within 3 years.

2. 70% of preceptors will rate students’ academic preparedness for supervised practice rotation meeting expectations.

3. 80% of students will rate their supervised practice as meeting expectations for employment preparation.
4. 70% of preceptors will rate students ‘professionalism and performance in supervised practice rotation as meeting expectations.

5. 80% of graduates will pass the R.D. examination on the first attempt.

6. 75% of graduates pursuing employment in dietetics or related field will obtain it within 12 months.

7. 80% of graduates will rate themselves as meeting academic and dietetic practice competence for an entry level dietitian.

8. 80% of employers will rate graduates as meeting expectations for entry level dietitians.

9. 80% of graduates pursuing advanced degrees will be accepted to a graduate program.

Program Goal 2

- CP graduates are culturally competent servant leaders in their profession and/or community.

Program Objectives for Goal 2

1. At least 50% of graduates will participate in a professional organization within one year of graduation.

2. At least 50% of graduates will report some form of community service within one year of graduation.

3. At least 80% of graduates will rate themselves as culturally competent.

4. At least 80% of employers will rate CP program graduates as culturally competent.

5. At least 50% of graduates will have identified and pursued a professional/personal mentor within one year of graduation.

6. At least 50% of graduates will hold a leadership position in a professional/community organization within 5 years after graduation.
LEARNING ASSESSMENT

The Coordinated Program in Dietetics has a learning assessment plan that ensures that the required knowledge and core competencies required by ACEND are achieved and documented. Over a 5-year period, all developed knowledge and core competencies are evaluated at least one time. Students may review the program assessment plan and results (program outcome data) in the program director’s office (Baker Annex 102d) or by requesting a copy by phone from the Department of Human Ecology: (302) 857-6440. The plan delineates in which course/supervised practice rotation each competency is assessed, who does the assessment, what assessment method is used, and when the assessment occurs.

COORDINATED PROGRAM IN DIETETICS CONCENTRATION

As an institution, Delaware State University values diversity. All students are required to take a course in African American history, literature or music/art and a course in Global Societies. “The rationale for Global Societies calls for a broadly educated student who understands that the world is indeed the stage on which all humans interact politically, socially, and culturally.” Building on this global focus and the international nature of the faculty in the Department of Human Ecology, the Coordinated Program in Dietetics provides a concentration in culturally competent clinical and customer services.

The mission of the Coordinated Program in Dietetics at Delaware State University is to train leaders to provide culturally competent food and nutrition services that promote, improve, or restore the health and well-being of people of different food preferences, socioeconomic status, disabilities, races/ethnicities, religions, geographic location, and nationalities. Healthcare in the United States is plagued with health disparities related to age, sex, race and ethnicities, religion, disabilities, and socioeconomic status. To be effective health care providers, nutrition professionals must adopt culturally acceptable verbal and non-verbal communication strategies, demonstrate cultural competence regarding social traditions related to health care and food, and develop culturally appropriate nutrition education materials.

The purpose of the concentration is to graduate students who are able to:

- Research and develop culturally appropriate nutrition education materials.
- Use effective assessment methods and counseling skills with diverse people of different cultures, disabilities, age, ethnic and socio-economic background or religion.
- Demonstrate effective cross-cultural communication skills.
- Evaluate and adapt recipes, meal preparation guidelines, meal patterns and menus to ensure culturally competent food service.
These skills will allow the future dietitian to be more effective in the interaction with clients and customers.

**CP CURRICULUM**

Students in the CP curriculum are required to complete the general education requirements of Delaware State University, the support knowledge courses for the coordinated program and the core courses in the curriculum in addition to a minimum of 1200 supervised practice hours.

After five semesters of didactic study, the student will have completed all support science courses, most of the general education requirements, and a number of the core courses of the program. The supervised practice will be accomplished during their last three semesters and one summer at DESU.

Students transferring from another institution must complete at least 30 semester hours and all their supervised practice experience at Delaware State University. If a student wishes to transfer any credits in the core courses, (s)he has to submit the course syllabus, course description and prerequisites, and transcript with the grade for the course to the program director or department chair for evaluation of equivalency.

**COURSE WORK REQUIREMENTS FOR BACHELOR’S DEGREE (Appendix, Page 32)**

**General Education Requirements for CP Students (67 hours)**

**Mathematics and Statistics: (6 hours)**
- MTSC-121 (3): College Algebra
- NTRS-321 (3): Biometrics or MGMT-208: Statistics

**Social Sciences: (9 hours)**
- ECON-201 (3): Macroeconomics or HMEC-309: Consumer Economics
- PSYC-201 (3): Introduction to Psychology or SCCJ-101: Introduction to Sociology
- GLOB-395 (3): Global Societies

**Communications: (9 hours)**
- ENGL-101 (3): English Composition I
- ENGL-102 (3): English Composition II
- ENGL-200 (3): Speech

**Other General Education Requirements: (16 hours)**
- HMEC-191 (1): University Seminar I
- HMEC-192 (1): University Seminar II
- ENGL-xxx (3): Literature
- HIST-xxx (3): History
- XXX-xxx (3): Art and Humanities Elective I
- XXX-xxx (3): Art and Humanities Elective II
- MVSC-101 (2): Lifetime Fitness and Wellness

**Coordinated Program in Dietetics Academic Requirements**

**Support Science courses: (27 hours)**
- BIOL-101 (4): General Biology I
- BIOL-102 (4): General Biology II
- CHEM-101 (4): General Chemistry I
- CHEM-102 (4): General Chemistry II
- CHEM-301 (4): Organic Chemistry
- BIOL-221 (4): Microbiology or HMEC-260: Food Microbiology
- MVSC-202 (3): Anatomy and Physiology II or BIOL-307: Physiology

**Core CP Coursework: (42 credits)**
- HMEC-105 (3): Principles & Analysis of Food Preparation
- HMEC-215 (3): Introduction to Nutrition
- HMEC-250 (3): Introduction to Food Science
- HMEC-310 (2): Introduction to Dietetics
- HMEC-335 (3): Nutrition Through the Life Cycle
- HMEC-325 (2): Human Nutrition Assessment
- HMEC-308 (3): Advanced Nutrition
- HMEC-331 (3): Quantity Food Systems Management or HTM-311 Food Production Management
- HMEC-336 (3) Institutional Food Service or HTM-345: Restaurant Management
- HMEC-432 (3): Community Nutrition
- HMEC-425 (3): Medical Nutrition Therapy I
- HMEC-426 (3): Medical Nutrition Therapy II
- HMEC-427 (2): Nutrition Education and Counseling
- HMEC-428 (2): Research Methods
- HMEC-455 (3): Nutritional Biochemistry
- HMEC-450 (1): Senior Seminar

**Supervised Practice Experience (20 hours):**
- HMEC-490 Community Practicum
- HMEC-491 Clinical Practicum
- HMEC-492 Management Practicum
- HMEC-493 Enrichment Practicum

**Community Rotation:**
- Junior Year Spring Semester: 2 days/week-15 weeks

240 hours

**GRADE REQUIREMENTS AND VOLUNTEER EXPERIENCE**

Dietetics students are required to maintain a minimum grade of “B” in all core CP coursework until they graduate. Grade requirements for other courses are described in the admission criteria below. Students who do not meet these requirements will not be admitted and are only allowed to continue in the Coordinated Program when coursework is retaken and meets the outlined grade expectations.

Evaluation of the supervised practice performance will be conducted jointly by the Director of the Coordinated Program in Dietetics and preceptors at the sites where the student will complete supervised practice rotations.

Students who have gained volunteer experience in the food service, wellness, or health care industry tend to be better prepared for the supervised practice part of the coordinated program. Their volunteer experience will allow them to gain familiarity with the expectations in dietetic-related employment, develop the ability to interact and work with a wide variety of personnel, and integrate the gained experience into their didactic and supervised practice experiences. Work/volunteer experience is one of the criteria for admission to the CP.

All undergraduate students are encouraged to be members of the FAN (Food and Nutrition) Club at Delaware State University and student members of Academy of Nutrition and Dietetics and the Delaware Academy of Nutrition and Dietetics.
APPLICATION TO THE COORDINATED PROGRAM IN DIETETICS

Admission to Delaware State University does not guarantee admission to Coordinated Program in Dietetics, which requires a separate application. Application for admission to the Coordinated Program should occur four semesters prior to the student’s anticipated date of graduation and prior to any supervised practice experience. This should allow students to complete their supervised practice in **three semesters and one summer session**.

Students shall submit an application package to the program director: Dr. Bettina Taylor, Baker Annex 102d, Delaware State University, Dover, DE 19901, on/or before October 15 or on/or before March 15 prior to the first semester of supervised practice experience.

The application package must include the following information:

- Personal statement delineating student’s professional goals and reasons for seeking the RDN credential.
- Completed course work, date completed, and achieved grades (see form below).
- Transcripts of all coursework completed at non DSU institutions.
- Résumé detailing education, work experience, volunteers experience, honors/awards and leadership experience.
- Two reference letters (See form below). Transfer students must submit three (3) reference letters. One letter must be from a college professor in a core or science course and one from a person for whom the student worked or volunteered.

After review of the application, the applicant will be formally interviewed by the program director and/or Department Chair. The purpose of the interview is to determine the applicant’s communication skills, professionalism, maturity, and ability to successfully complete the rigorous CP program.

Upon acceptance to DSU’s Coordinated Program in Dietetics, students will be required to supply evidence of health insurance, a national background check (see program director for specifications), and current immunizations including proof of a negative TB skin test performed within the past 12 months. Most hospitals require Hepatitis B vaccinations and some require Hepatitis A vaccination. Depending on the supervised practice rotation, students may need to obtain additional tests to work in specific health care facilities. Some supervised practice sites may require drug and/or alcohol testing.
Equal Opportunity in Admission
Delaware State University’s non-discrimination policy states that “the University prohibits discrimination against any person on the basis of race (skin color), sex (including pregnancy), national origin, religion, age (40 - 70), disability, marital status, or genetic information of otherwise qualified individuals and any other category protected by federal, state, or local law. This nondiscrimination policy applies to and includes, but is not necessarily limited to, employment practices, educational programs, student admissions, and access to services. The University will abide by all applicable requirements of state and federal law prohibiting discrimination.” For further information, please visit: http://www.desu.edu/sites/default/files/NonDiscrimination.pdf. Any complaint must be filed with the Assistant Vice President of Human Resources. Details of the proceedings can be accessed on the University’s website: http://www.desu.edu/sites/default/files/DiscriminationComplaintResolution.pdf

Transfer Credit
Students transferring from another institution of higher learning should refer to Delaware State University policies for transfer student admissions: http://www.desu.edu/admissions/transfer-student-admissions. To be considered for admission to the CP, transfer students must complete a minimum of 12 hours at Delaware State University. All supervised practice hours, Medical Nutrition Therapy I and II, Community Nutrition, and Institutional Food Service must be completed at DSU.

ADMISSION REQUIREMENTS

Eligibility requirement for acceptance to DSU’s Coordinated Program in Dietetics:

- Students must have an overall GPA of 3.0.
- Students must obtain a minimum of “B” grade in all core CP courses.
- Students must maintain an average of a 2.5 GPA or above in their support science courses with a “C” grade or better in each.
- Students must provide evidence of leadership, professionalism, and motivation, needed to complete the rigors of the CP.
- If the student is a transfer student, he/she must complete a minimum of 12 hours at DSU before he/she can gain admission to the CP.
- All transfer students are required to submit 3 letters of recommendation and official transcripts to the Director of the CP for review in addition to the required documentation for admission to Delaware State University.

Students who do not meet the grade requirements will not be considered for admission.

Boarding Students:
Normally, freshmen are assigned rooms in Meta Jenkins Hall (Co-Ed), Harriet Tubman Hall (F), Lydia P. Laws Hall (F) and Wynder Towers (Co-Ed Honors). New Students interested in Honors Housing must contact the Honors program at honors@desu.edu or call 302.857.7514. Designated areas for upperclassmen in traditional housing are Warren-Franklin Hall and the Living and Learning Commons which are Co-Ed facilities. Upperclassmen with a minimum of 30 credit hours may apply for the University Courtyard Apartments, call 302.857.7966 or the University Village Apartments, call 302.857.8511.

Prices subject to change – * Mandatory Fees

Students enrolled in the CP must have reliable transportation during their junior and senior year because they will have to travel to the supervised practice sites. The supervised practice sites may be anywhere in Delaware and surrounding areas. Students must budget car expenses for travel to and from sites.
Students enrolled in the CP will be encouraged to attend to the Food and Nutrition Conference and Expo of the Academy of Food and Nutrition once. Depending on the conference location, the student should budget $1000-1500.

Students are also required to own a lab top to work on and complete assignments for both courses on campus and for their supervised practice rotations. They need two clean, professional lab coats ($60-100), funds to cover criminal background checks and medical/drug and alcohol testing/vaccinations ($50-$100), funds for professional liability insurance ($40), and funds for student membership in ACEND ($50) [http://www.eatrightpro.org/resources/membership/membership-types-and-criteria/student-member].

**COORDINATED PROGRAM IN DIETETICS Policies**

**Academic Calendar**

The CP follows the academic calendar of Delaware State University for all academic courses taken at the University. For the supervised practice rotations, students will have to be available on the days that they are scheduled at a facility. The student is expected to demonstrate flexibility and maturity in the scheduling of their rotations to ensure learning and exposure to the different facets of work at a facility.

Students will work two days per week during the spring semester of their junior year and one to two additional weeks before the spring semester, during their spring break or directly after the semester ends to complete the 320 hours of their community rotation. During the summer of their junior year, students will return to campus in July/August to complete four full weeks of clinical supervised practice. Then they will work three days/week during the fall semester of their senior year to complete 500 hours of clinical supervised practice. In the spring of their senior year, students will work one full week before classes start and then three days a week in a food service management facility for 12 weeks. Students will end their supervised practice with an enrichment rotation of a minimum of 10 days to be completed during the end of their spring semester. If students want to do the enrichment rotation at a community or clinical site, they may be able to schedule the enrichment rotation at the end of their community or clinical rotations. For their enrichment rotation, students are encouraged to work at a facility with which they are not familiar, yet, to broaden their exposure and experience.

When students are in their supervised practice rotations, they are strongly advised not to work anywhere else. Successful completion of academic courses and supervised practice assignments and commitments require a highly motivated, focused, and dedicated student.
Weekends: The student may be required to work some weekends depending on the facility and preceptor to whom they are assigned. To participate in all facets of an operation will require some adaptability.

Assessment of Student Learning

Student performance will be assessed in each academic course and will be described in the course syllabus that students receive on the first day of class. In-class assessments include exams, demonstrations, and presentations. Professors/instructors are required to submit midterm evaluations for each student in addition to student’s final grades for the course at the end of each semester.

Regular assessment during student’s supervised practice will be the responsibility of their preceptors or site supervisors. Students will meet regularly with their preceptor to evaluate progression in knowledge application and on the job performance. Depending on the rotation length, students will be evaluated once or twice formally with informal discussions as needed. Preceptors/supervisors will give feedback to students to enable them to improve their performance.

Students must attain all core competencies during their supervised practice. Both program faculty and preceptors will assist in developing students’ ability and competence. Consistent lack of commitment, performance, or professionalism on part of the student may result in the removal of the student from the program.

Behavioral Standards

While maintaining good academic standing, students must demonstrate professionalism in their interactions and conduct and adhere to all policies/procedures of their assigned supervised practice sites. In addition to site specific policies, each student must:

- Be prepared for each rotation with assignments completed prior to first day.
- Call site preceptor one week prior to the first day of the rotation.
- Address preceptors, coworkers, instructors, and the program director with the correct professional titles.
- Dress professionally and appropriately for their assigned work.
- Act professionally with patients/clients and their families and all employees of the institution.
➢ Treat every person with whom they come in contact with respect and kindness.
➢ Keep all patient/client information confidential.
➢ Arrive always on time (Be prepared to be 5-10 minutes early every day!).
➢ Work all assigned hours.
➢ Display a positive attitude.
➢ Complete all assigned tasks on time and in a satisfactory manner.
➢ Take initiative/volunteer to gain as much from each experience as possible.
➢ Follow instructions carefully.
➢ Ask questions for clarification prior to beginning an assignment/task.
➢ Abstain from smoking, chewing gum, alcohol consumption, texting, private phone calls, and personal internet use including checking personal e-mails during working hours.

**Code of Ethics for the Profession of Dietetics (Summary)**

All CP students are expected to adhere to the Code of Ethics for the Profession of Dietetics

**Fundamental Principles**

1. The dietetics practitioner conducts himself/herself with honesty, integrity, and fairness.
2. The dietetics practitioner supports and promotes high standards of professional practice. The dietetics practitioner accepts the obligation to protect clients, the public, and the profession by upholding the Code of Ethics for the Profession of Dietetics and by reporting perceived violations of the Code through the processes established by the Academy of Nutrition and Dietetics and its credentialing agency, CDR.

**Responsibilities to the Public**

3. The dietetics practitioner considers the health, safety, and welfare of the public at all times.
4. The dietetics practitioner complies with all laws and regulations applicable or related to the profession or to the practitioner’s ethical obligations as described in this Code.
5. The dietetics practitioner provides professional services with objectivity and with respect for the unique needs and values of individuals.
6. The dietetics practitioner does not engage in false or misleading practices or communications.
7. The dietetics practitioner withdraws from professional practice when unable to fulfill his or her professional duties and responsibilities to clients and others.
Responsibilities to Clients
8. The dietetics practitioner recognizes and exercises professional judgment within the limits of his or her qualifications and collaborates with others, seeks counsel, or makes referrals as appropriate.
9. The dietetics practitioner treats clients and patients with respect and consideration.
10. The dietetics practitioner protects confidential information and makes full disclosure about any limitations on his or her ability to guarantee full confidentiality.
11. The dietetics practitioner, in dealing with and providing services to clients and others, complies with the same principles set forth above in “Responsibilities to the Public” (Principles #3-7).

Responsibilities to the Profession
12. The dietetics practitioner practices dietetics based on evidence-based principles and current information.
13. The dietetics practitioner presents reliable and substantiated information and interprets controversial information without personal bias, recognizing that legitimate differences of opinion exist.
14. The dietetics practitioner assumes a life-long responsibility and accountability for personal competence in practice, consistent with accepted professional standards, continually striving to increase professional knowledge and skills and to apply them in practice.
15. The dietetics practitioner is alert to the occurrence of a real or potential conflict of interest and takes appropriate action whenever a conflict arises.
16. The dietetics practitioner permits the use of his or her name for the purpose of certifying that dietetics services have been rendered only if he or she has provided or supervised the provision of those services.
17. The dietetics practitioner accurately presents professional qualifications and credentials.
18. The dietetics practitioner does not invite, accept, or offer gifts, monetary incentives, or other considerations that affect or reasonably give an appearance of affecting his/her professional judgment.

Responsibilities to Colleagues and Other Professionals
19. The dietetics practitioner demonstrates respect for the values, rights, knowledge, and skills of colleagues and other professionals.
Program Completion Requirements

The CP is scheduled to be completed within four years (eight semesters) and one summer term during the summer of the student’s junior year. To meet the CP requirements students must maintain an overall GPA of 3.0 with a minimum of a B grade in all their core CP courses (page 9) and pass all of their supervised practice practica. For the proposed CP schedule, please refer to the Appendix, page 32. After the successful completion of all required courses and the supervised practice experience, students will receive a bachelor’s degree in Food and Nutritional Sciences with a concentration in Dietetics and a verification statement to sit for the registration examination to become registered dietitians/nutritionists.

The maximum time allowed to complete the supervised practice portion of the CP is three years. Students are expected to be full-time students once they are admitted to the CP program (second semester of their junior year). They may complete the first semester of their junior year as part or full time students while they apply to the program.

The purpose of the supervised practice experience for the student is to acquire entry level competence in dietetic practice. As learners, they are not allowed to replace employees at the facilities to which they are assigned on a regular basis. However, as students advance through their supervised practice, they are expected to work increasingly independently and take on more responsibilities on their path to acquire entry level competency. If the student has any questions or concerns, they should contact the program director.

Student Support Services

All students at Delaware State University have access to a number of different support services:

- The Student Health Center
- Accommodation for disabilities: [http://www.desu.edu/academics/student-accessibility-services](http://www.desu.edu/academics/student-accessibility-services)
- Tutoring/academic assistance: [http://www.desu.edu/academics/integrated-academic-support-and-advisement](http://www.desu.edu/academics/integrated-academic-support-and-advisement)
- Counseling services: [http://www.desu.edu/student-affairs/counseling-services](http://www.desu.edu/student-affairs/counseling-services)
- Career services: [http://www.desu.edu/career-services/career-services-and-student-employment](http://www.desu.edu/career-services/career-services-and-student-employment)
Protection of Privacy Information

According to Delaware State University policy, “the Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records [including:]

- The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.
- The right to request the amendment of the student's education records that the student believes to be inaccurate or misleading.
- The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. Please review the policy and exceptions under the notification of rights under FERPA: [http://www.desu.edu/admissions/academic-regulations](http://www.desu.edu/admissions/academic-regulations).
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by Delaware State University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

  Family Policy Compliance Office  
  U.S. Department of Education  
  400 Maryland Avenue, SW  
  Washington, D.C. 20202-4605

Access to Personal Files

Students and graduates of Delaware State University have access to their personal files. “A transcript of a student's academic record is released to a third party upon the written signed request of the student. A Transcript Request form is available on the following web site: [http://www.desu.edu/sites/default/files/u152/Transcript%20Request%20Form%20Revised%2004%2024%2014.pdf](http://www.desu.edu/sites/default/files/u152/Transcript%20Request%20Form%20Revised%2004%2024%2014.pdf). In accordance with the Family Educational and Privacy Act (FERPA), exceptions to this include release of academic records to University officials with legitimate educational interests and transfer institutions.

An official transcript, one bearing the seal and Registrar's signature, is sent from the Office of Records and Registration directly to the official or institution specified by the student. All enrolled students are entitled to five free transcripts during their matriculation at the university. Once enrolled students have exceeded their first five free transcripts, they are to pay the normal fee for transcripts. The transcript request fee is $10.00 per transcript. A request for a transcript normally will be processed within five to seven business days, except during peak work periods such as registration, preregistration, final examinations, and commencement.
Transcripts submitted by the student from other institutions become the property of Delaware State University and are not reissued or copied for release. Requests for other institutions' transcripts must be made directly to the respective institution.

In addition, CP students have access to their personal records including preceptor and site supervisor evaluations in the program director’s office. The files may not be removed from the office. Students may obtain a copy of those files other than confidential recommendations and preceptor faculty letters by submitting a written request to the program director. The program director will also be available to answer any questions the student may have regarding their evaluations.

Insurance Requirements

Students are required to provide proof of health insurance upon entering Delaware State University and proof of professional liability insurance prior to their supervised practice rotations to protect them from malpractice suits. The Academy of Nutrition and Dietetics recommends Marsh Affinity Group Services, a service of Seabury and Smith. The coverage will be required until the student graduates. The CP director will provide instructions on how to obtain insurance.

Liability for Safety in Travel

Students are responsible for their own liability in travel to any off campus activities including but not limited to field trips, supervised practice rotations, and travel to and from Delaware State University and to and from meetings. Reliable transportation is essential to participate in the supervised practice portion (junior and senior year) of their education.

In case of an accident, the student should secure his/her safety first but must contact the program director and the preceptor to inform them of the accident.

Injury or Illness during Supervised Practice

In case of any injury or illness, the student must inform the preceptor/rotation supervisor immediately and seek appropriate medical treatment as needed. The student should follow the policies and procedures of the supervised practice site when an injury occurs during the supervised practice at a facility. If the injury or illness require the student to miss any of their supervised practice hours, the student is responsible to contact the preceptor to arrange for a make-up time convenient for both parties.
Students are not covered by workman’s compensation at their practicum sites because they are not employees. Neither Delaware State University nor the supervised practice facilities are financially responsible for any coverage of treatment.

**Family Emergency or Death**

If the student faces a family emergency or a death in the family, (s)he must contact the CP program director and the preceptor at the facility where the student is completing his/her rotation. Any missed time must be made up. The scheduling of make-up time should occur as soon as possible (e.g. next vacation/off-day of the student) and is the student’s responsibility.

Counseling services to support the student at this difficult time are available at the Delaware Student Counseling Center: [http://www.desu.edu/student-affairs/counseling-services](http://www.desu.edu/student-affairs/counseling-services).

**Student Withdrawal and Refunds**

If a student wishes to withdraw from Delaware State University (s)he must submit the appropriate *Withdrawal from the University Form* to the Records and Registration Office. For the exact steps please refer to the University website: [http://www.desu.edu/admissions/academic-regulations](http://www.desu.edu/admissions/academic-regulations).

Students withdrawing from the institution who received Title IV financial aid must also complete an Exit Counseling. The steps are delineated at: [http://www.desu.edu/financial-aid/financial-aid-%E2%80%94current-students](http://www.desu.edu/financial-aid/financial-aid-%E2%80%94current-students).

The University’s policy regarding tuition refunds is:

<table>
<thead>
<tr>
<th>Withdrawal from the University</th>
<th>Refund of Paid Tuition</th>
<th>Refund of Paid Fees</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to 1st Day</td>
<td>100%</td>
<td>100%</td>
</tr>
<tr>
<td>During first two weeks of the semester</td>
<td>80%</td>
<td>No refund</td>
</tr>
<tr>
<td>After the first two weeks</td>
<td>No refund</td>
<td>No refund</td>
</tr>
</tbody>
</table>

Room and meal charges are refunded on a prorated weekly basis. After classes begin, room charges are prorated weekly but will not exceed 50 % of total semester charges. Advance room deposits are non-refundable.
Academic/Supervised Practice Probation and Dismissal from the Program

Academic Probation: As already discussed, students in the Coordinated Program in Dietetics at Delaware State University must maintain a GPA of 3.0 in their academic course work and must successfully pass all their supervised practice rotations to graduate with a bachelor’s degree in Food and Nutritional Sciences with a concentration in Dietetics and receive a verification statement. If the student’s overall GPA falls below the 3.0, the student will be placed on academic probation for the CP. If the student receives a grade below a B in any core course, the course must be retaken independent of his/her overall GPA. Failure to raise the GPA to 3.0 or to obtain a minimum of a B in all core courses will lead to dismissal from the program. It is the responsibility of the student to work with faculty to ensure that (s)he is performing well in courses and to seek assistance when needed.

Supervised Practice Probation: Student performance and professionalism are evaluated regularly as they rotate through different facilities in their supervised practice. Their preceptors or site supervisors will meet with the student throughout the rotations to discuss strengths and areas in need of improvement. In a coordinated program, students must demonstrate the attainment of knowledge and entry level skill before they graduate from the program. The program director will review student performance evaluations and contact preceptors as needed. If a student struggles in a rotation, extra assignments and a timeline with specific objectives for improvement of the students will be established. If a student fails to meet performance standards by the end of a rotation, (s)he may have to repeat all or part of the rotation/rotation assignments. Failure to cooperate and make the necessary improvements may lead to dismissal from the program.

To ensure that all students understand the policies regarding maintenance of their GPA and performance in supervised practice rotations, the student will sign the Academic Probation and Dismissal statement to such effect (Appendix, page 36).

Other Disciplinary and Termination Procedures

If the CP student fails to adhere to the behavioral policies set forth by the CP or supervised practice facilities, Delaware State University reserves the right to dismiss the student at any time without prior warning if the student’s conduct is unacceptable. More frequently, a warning notice will be issued (Appendix, page 37). If the warning is disregarded, the CP may decide to dismiss the student.
CP students are expected to display academic honesty in all their work, refraining from cheating, knowingly or willingly falsifying data, or plagiarizing. Academic dishonesty may result in a failing grade for assigned work or a failing grade in a course. Depending on the severity of the offense, it may lead to the student’s dismissal from the program.

Any dismissal of a student is decided upon by the CP program director, an instructor or preceptor (if applicable) and the Chair of the Department of Human Ecology after thorough discussions with all involved parties. Student termination is never a unilateral decision.

Grievances

The process for resolution of grievances about academic problems begins with the student addressing the issue with the faculty member/instructor involved. If the difficulty is not resolved, the student may meet with the Department Chair without the faculty member. If a satisfactory resolution does not occur after a meeting with the Department Chair, the student may take the grievance to the Dean of the College of Agriculture and Related Sciences, and if necessary, to the Vice President of Academic Affairs and Provost.

If the CP student has a formal complaint with regard to a supervised practice facility or supervised practice preceptor, the program director will discuss and document the issue in detail with the student. Then the CP director will meet with any involved party (faculty, preceptor etc.) and also with the Chair of the Department of Human Ecology. The Department Chair may request a meeting with the student and potentially all parties involved. If no satisfactory solution can be found, the Dean and if necessary the Vice President of Academic Affairs and Provost may be contacted.

If a preceptor is dissatisfied with the CP student’s conduct or performance, (s)he is encouraged to first meet with the student and discuss the problems while also filing a written complaint with the CP program director if deemed necessary. The program director will meet with the student and potentially with the preceptor and student in an attempt to resolve the conflict so that the student is able to complete the supervised practice rotation successfully. Most affiliation agreements allow the rotation facility to dismiss students for inadequate performance or conduct.

If a preceptor has concerns regarding the performance of the program director, they have the contact information for the Chair of the Department of Human Ecology who will address all
necessary issues with the preceptor. The Chair will decide if the Dean of the College of Agriculture and Related Sciences or the Provost needs to be informed of the incidence.

If a student still has concerns regarding program compliance with the 2012 Standards of Education set forth by ACEND (http://www.eatrightacend.org/ACEND/) after (s)he has exhausted all other options of complaint resolution (the CP program director, chair of the Department of Human Ecology, Dean of the College, Vice President of Academic Affairs and the Provost of Delaware State University), the student may file a complaint with the Accreditation Council for Education in Nutrition and Dietetics (ACEND). “ACEND has established a process for reviewing complaints against accredited programs in order to fulfill its public responsibility for assuring the quality and integrity of the educational programs that it accredits. Any individual, for example, student, faculty, dietetics practitioner and/or member of the public may submit a complaint against any accredited program to ACEND®. However, the ACEND® board does not intervene on behalf of individuals or act as a court of appeal for individuals in matters of admissions, appointment, promotion or dismissal of faculty or students. It acts only upon a signed allegation that the program may not be in compliance with the accreditation standards or policies. The complaint must be signed by the complainant. Anonymous complaints are not considered.”

The procedure for complaints and the complaint investigation form can be accessed on the ACEND website: http://www.eatrightacend.org/ACEND/content.aspx?id=6442485390. The ACEND contact information for this purpose is listed on the following page:

Chair, Accreditation Council for Education in Nutrition and Dietetics
120 South Riverside Plaza, Suite 2000
Chicago, IL 60606-6995
Phone: (800) 877-1600, extension 4872

**Student Misconduct**

In the case of student misconduct or violations of the Student Code of Conduct at Delaware State University (http://www.desu.edu/sites/default/files/policies/6/DSU6-05StudentConduct%20Standards%20and%20Policies%28online%29.pdf) “the [University’s] judicial system promotes concepts of civility, fairness, and respect and conflict resolution by enforcing community standards. Students are held accountable for their behavior in a fair yet developmental manner. The judicial process protects the rights of both individual students and the University community by ensuring that claims of student misconduct are handled equitably and uniformly.” Delaware State University’s grievance procedures are outlined in the Student...
Judicial Handbook:
ACADEMIC PROBATION AND DISMISSAL POLICY

I, (Name)____________________, acknowledge that it is my responsibility to maintain a GPA of 3.0 and a B grade or higher in all my core courses to remain in the Coordinated Program in Dietetics at Delaware University. If I do not meet these requirements, I will be placed on academic probation.

I also understand that I have to pass each supervised practice rotation satisfactorily. My evaluations by preceptors can be ground for requiring me to repeat part or all of my rotation/rotation assignments.

If I fail to improve my grades or my performance in the supervised practice rotations, I may graduate with a bachelor’s degree in Food and Nutritional Sciences but will not receive an ACEND Verification Statement and will not be able to graduate with a concentration in Dietetics. Without the verification statement, I cannot take the registration examination to become a registered dietitian/nutritionist.
