SAT Prep Course

Almost all undergraduate colleges and universities require that prospective students take the SAT. Our course prepares students for all the question types on this test, and each of the test question areas will be analyzed with special consideration given to math and verbal skills. Lessons will cover techniques for approaching the reading comprehension passages that appear on the test. Students will also practice on actual SAT tests from previous years.

Course Curriculum

The CLS curriculum provides a no-nonsense approach to mastering the SAT, and participants will analyze each test question area on the SAT.

Topics include:
♦ Test-taking techniques aimed at relieving standardized test-taking anxiety
♦ Basic and advanced math concepts (including fractions, decimals, percentages, ratios, proportions, algebraic and geometric concepts, and trigonometry)
♦ Grammar review
♦ Reading comprehension
♦ Sentence completions
♦ Essay writing

The instructor emphasizes techniques and problem approaches by analyzing prior exams and providing explanations and interpretations of the correct answers.

2014 Online Sessions:

Spring Session I: January 13 - February 28, 2014
