

Medical Billing and Coding

The Medical Billing & Coding Profession

Medical billing and coding is one of the fastest-growing careers in the healthcare industry today! The need for professionals who understand how to code healthcare services and procedures for third-party insurance reimbursement is growing substantially. Physician practices, hospitals, pharmacies, long-term care facilities, chiropractic practices, physical therapy practices, and other healthcare providers all depend on medical billing and coding for insurance carrier reimbursement. The medical industry will have almost 50% more jobs available by 2021; therefore, a surplus of medical facilities will continue to hire candidates who specialize in medical billing and coding.

The Medical Billing & Coding Program

This billing and coding program deliver the skills students need to solve insurance billing and coding problems. It details proper assignment of codes and the process to file claims for reimbursement. With the transition to ICD-10, this course will also provide training in ICD-10-CM. This course covers the following key areas and topics:

- An overview of healthcare & insurance industry
- The organization and use of the ICD-10-CM, CPT, and HCPCS manuals to identify codes
- Detailed review and practice using the alphabetic index and tabular list of the ICD-10-CM, and practice coding examples within the CPT
- Basic claims processes for medical insurance and third-party reimbursements
- Completing common insurance forms, tracing delinquent claims, and appealing denied claims
- ICD-10-CM Overview

Education & Certification

Numerous national certification exams are available for students who complete this course including **National Healthcareer Association (NHA) Certified Billing and Coding Specialist (CBCS)**, and the **American Health Information Management Association (AHIMA), Certified Coding Specialist (CCS)** Certification Exams.
