

Project Management Professional (with PMI PMP Exam Prep)

The Project Management Profession

Project managers are responsible for planning and overseeing projects to ensure they are completed in a timely fashion and within budget. Project managers plan and designate project resources, prepare budgets, monitor progress, and keep stakeholders informed the entire way. This is all done within the confines of a company's goals and vision. Project managers are needed on a wide variety of projects, including construction, IT, HR, and marketing.

Education & Certification

- Students who complete this comprehensive course would be prepared to sit for the **Project Management Institute (PMI) Project Management Professional (PMP) Certification Exam**.
- To obtain a PMP certification, one must have a degree (associate's or Bachelor's), a certain number of hours leading and directing projects, a certain number of hours of project management education, pass an exam, and participate in ongoing professional development. Successful project managers are detail-oriented and have excellent communication skills.

The Project Management Professional Program

This completely *online and self-paced* project management program builds successful project managers at all levels of the organization. It provides a comprehensive preparation for the Project Management Professional (PMP)[®] certification exam including exam-taking tips, 25 comprehensive module quizzes, five process group tests, and two full-length, 200-question practice exams covering the areas of interest from *A Guide to the Project Management Body of Knowledge, (PMBOK[®] Guide)*, which will provide a report to help you determine your areas of weakness.

Detailed Course Topics Covered

- Recognize how enterprise environmental factors and organizational process assets affect how projects can be managed
