Release time or University Match Commitments
Faculty who are submitting proposals that include release time or an institutional match must obtain a support letter committing to that match from the appropriate institutional officials. For release time, that letter must come from the chair or dean. Commitment of an institutional match other than the standard 30% indirect cost return (PI account) requires a support letter from the provost. These letters must be part of the grant package submitted to the Office of Sponsored Programs (OSP).

Documents for submission to OSP (via Docusign, see instructions below)
The proposal package for signature must include the elements listed below.
1. Internal Processing form with signatures of PI(s) and project personnel (on effort forms), as well as chair and dean (or equivalent);
2. Budget spreadsheet and budget justification;
3. Letters documenting the DSU institutional commitment;
4. Proposal summary or abstract (1 page or less);
5. If there is a subcontract, all subrecipient documents including budget, budget justification, statement of work, and subrecipient point of contact.
6. Any documents for which the agency requires a “live” signature of the signing official.

Submission Deadlines
The proposal signature package (including institutional letters of commitment) must be submitted to OSP with sufficient time to ensure that OSP staff have time to review and correct budgets, verify compliance, and approve the documents for submission to the signing official. Proposals not submitted by the deadline may not have approvals completed in time for submission.

DocuSign approval form – Must arrive at OSP at least FOUR business days before deadline.
Final proposal submitted to OSP – Must be submitted to OSP by close of business the day before the deadline.

Proposals submitted through a portal (grants.gov, etc). Proposal must be completely uploaded and released to OSP by close of business the day before the deadline. First time PIs or those needing assistance with preparing proposals in grants.gov are encouraged to reach out to DSU’s research development specialist, Brittany Maday bmaday@desu.edu for assistance.
